

NEWLY ENHANCED

Bachelor of Science in Health and Wellness (H&W)

The major previously known as the Bachelor of Science in Health and Wellness Innovation in Healthcare, is now the Bachelor of Science in Health and Wellness.

Distance Enhanced

New Prerequisites

New Name

Now Primarily Online

The newly enhanced program provides students with the perfect blend of virtual and hands-on learning. Courses are offered primarily online with in-person practicum coursework during the final year. Note: Prerequisite courses and General Education class requirements may only be offered in-person.

New Prerequisite Requirement

SOCIOL 1101 has been added as a prerequisite requirement for Autumn 2022 admission and beyond. Applicants must complete all prerequisites by the end of the spring semester prior to the term to which they are applying.

Program Overview

The Bachelor of Science in Health and Wellness (H&W) prepares students to use the dimensions of wellness to improve health, promote disease prevention and reduce chronic disease across the lifespan. Graduates are prepared and eligible to sit for certification exams including the respected National Board-Certified Health and Wellness Coaching (NBC-HWC) exam, and are prepared to apply to enter various graduate professional health programs.

Applying

Applications are available online beginning Jan. 18 with a submission deadline of July 1.
