

Education and Leadership Immersion

Type of visa required | B-1 Visa

The Education and Leadership Immersion is designed for professional nurses looking to build their educational and leadership expertise through experiences in the United States. Key areas include clinical observations at The Ohio State University Wexner Medical Center, personal leadership assessment activities, classroom and simulation lab observations in the College of Nursing and a one-week Evidence-based Practice Immersion that provides step-by-step education and hands-on training.

Time frame: One month (program runs: May June, and September)

One month | \$3,590

Education and Leadership Intensive Track

Type of visa required | B-1 Visa

The three- to six-month Education and Leadership Intensive Track has the same elements as the Education and Leadership Immersion, but it is designed to provide extended and more in-depth experiences in the United States. Clinical and classroom observational activities are tailored to meet the learning needs of the participant.

Time frame: Three to six months (must arrive January or August)

Three months | \$5,870

Four months | \$5,823*

Five months | \$6,363*

Six months | \$6,903*

Research Immersion

Type of visa required | B-1 Visa

The Research Immersion is designed for faculty, scientists and educators interested in short-term research collaboration and mentorship. Participants identify a research mentor in their area of interest and work with that individual one-on-one over the course of one month.

Additional requirements:

Letter of support from Ohio State faculty member outlining mutually agreed upon research proposal and objectives.

Time frame: One month

One month | \$2,500

Research Intensive Track

Type of visa required | B-1 Visa

The three- to six-month Research Intensive Track is for faculty, scientists and educators who have identified a mentor to specifically focus on building their research program through publication, pilot work, analyses and/or improving methodological approaches. Also included in program fee is a two-day Research Intensive Workshop that covers the essential elements of designing, conducting, analyzing and funding intervention research.

Additional requirements:

Letter of support from Ohio State faculty member outlining mutually agreed upon research proposal and objectives.

Time frame: Three to six months

Three months | \$6,495

Four months | \$7,286*

Five months | \$8,726*

Six months | \$10,166*

*Please note: Scholars staying longer than 12 weeks receive a 10% discount on the program fee, which is calculated into the above totals. Airline tickets, food, housing and global health insurance are not included in the program fee.
