You will also need to search for the **Appropriate Use of Restraints and the POC Glucometer** modules using the global search area using the names listed below.

Appropriate Use of Restraints and Alternatives
Online Class - Wexner Medical Center

[Assign](#)

This 15 minute course is designed for RNs and Ancillary Staff that apply restraints. The Ohio State University Wexner Medical Center has created and required you to complete this module as a staff member from an inpatient or ancillary area, who applies restraints, works with patients in restraints, and monitors patients in restraints. After you successfully complete the this course, you should be able to: identify types of restraints and how they are used; identify alternatives to restraint use; identify safety considerations and determine assessment and documentation of restraints.

POC Nova StatStrip Glucometer Competency
Curriculum - Wexner Medical Center

[Request](#) [Assign](#)

In this curriculum, you will learn about Nova StatStrip Glucometer Competency. You will also complete an assessment with limited retries on this topic.
