

Master of Clinical Research SUPPLEMENTAL APPLICATION

Required for Transfers only - if you were previously enrolled in a Graduate degree program at The Ohio State University

Refer to our website for specific instructions, additional forms, and application deadlines:

<https://nursing.osu.edu/academics> → Master of Clinical Research

NAME: _____ **Date of Birth (MM/DD):** _____

Choose (1) specialization:

- Clinical Research Management
- Regulatory Affairs

Online Program

This program is offered exclusively in a distance learning format.

Classes may be offered in either synchronous (specific day and time) or asynchronous (on your schedule) formats. Students will not be required to come to campus. Additionally, if a student in an exclusively distance learning option wants to take a nursing course in-person on the Columbus campus, they will be asked to petition for permission.

- I certify that I have read and agree with this statement.**

Licensure

Ohio State academic programs prepare students to sit for applicable licensure in Ohio. Ohio State cannot confirm whether a particular program meets requirements for professional licensure outside the State of Ohio. Please contact applicable licensing board(s) in a state where you may want to pursue licensure prior to beginning the academic program to determine whether the program meets licensure requirements. State licensing board disclosures and contact information are located at online.osu.edu/state-authorization/disclosures and odee.osu.edu/students/state-authorization.

International Applicants: A country may or may not regulate education provided to students in its jurisdiction and may or may not require foreign higher education institutions to comply with distance education regulations. At this time, Ohio State cannot guarantee the program meets curriculum requirements in your country.

- I certify that I have read and agree with this statement.**

Technical Standards for Nursing Students

The College of Nursing is committed to equal access for all qualified program applicants and thus has identified technical standards essential to the delivery of safe, effective nursing care while enrolled as a student in the program. These standards determine the students' ability to acquire knowledge and develop the clinical skills required by the curriculum. The student must meet these standards throughout their course of study in nursing for successful program completion.

Intent: All students applying for admission to the College of Nursing need to be aware of the technical standards required of all students in the program. Enrollment into the College of Nursing is contingent upon signed submission of this form acknowledging that the applicant has read the form and is able (with or without accommodation) to meet the standards as described below. This form must accompany the student application to the program.

General Abilities: Must be able to utilize the data typically received by the senses so it can be integrated into care in an accurate manner. Examples include: interpreting patient's verbal and non-verbal expression of pain; identifying baseline physical assessment findings and changes in temperature, vibration, color and movement; identifying and interpreting heart, lung, abdominal sounds and blood pressure; having the ability to respond to equipment monitors alarms; interpreting charts and computer data accurately.

Communication: Must be able to communicate effectively with both spoken and written communication in real time with a primarily English speaking population. Examples include: performing patient teaching, communicating patient status changes, and maintaining accurate patient records.

Patient Care: Must possess the ability to independently perform nursing skills within a safe time frame and engage in activities over an extended period of time (i.e., 6-12 hour clinical practicum). Examples of activities include: the ability to support and transfer patients; position and manipulate medical equipment using both fine and gross motor skills; prepare and administer medications; use the techniques of palpation and percussion; perform CPR.

Professional Behavior and Conduct: Must be responsible and accountable in behavior and actions, demonstrating sound judgment consistent with the professions' (ANA) Scope & Standards of Practice and Code of Ethics for Nurses. Examples include: handling stressful situations in a calm manner, interacting with patients, families and other healthcare team members with compassion, concern and sensitivity; acting with honesty, integrity and confidentiality; dressing appropriately; acting professionally.

Clinical Judgment: Must have the ability to think critically and abstractly, and assess, analyze, problem-solve and make clinical judgments and decisions for safe patient care. Examples include: measuring, calculating, prioritizing, reasoning, recognizing urgent or emergent situations, responding appropriately and using both short and long term memory functions.

If you have questions about the accommodation process at The Ohio State University you can contact the Office of Disability Services at: 150 Pomerene Hall, 1760 Neil Avenue, phone (614) 292-3307 or TDD (614) 292-0901.

I hereby attest that I have read this form and understand the technical standards necessary for successful program completion. I further attest that I am able to meet these technical standards, with or without reasonable accommodations, consistent with the Americans with Disabilities Act (ADA).

I certify that I have read and agree with these statements.
